b. El **objetivo** es **habilitar el filtrado de edición en línea** en la columna 'Ubicación del evento', agregamos 'Ubicación del evento' y también en el 'Nombre del evento':

The screenshot displays the Magento 2 Admin Panel interface. At the top, the navigation bar includes the Magento logo, a search bar, and several utility icons. The main content area is titled 'Events' and contains a table labeled 'Event Grid'. The table has columns for 'Event Name', 'Status', 'Event Type', 'Event Location', 'Event Date', and 'Event Type'. The first row is highlighted, showing an event named 'Microscope 4500 Scan' with a status of 'Scheduled' and an event type of 'Standard'. The event is scheduled for '2022-11-19 09:00' and is associated with the 'Microscope 4500 Scan' entity. The event is scheduled for 'Nov 19, 2022 12:00 AM' on a 'Friday'.

- a. **Navegue** a la carpeta:  
/training-events-contentapp/apps

- b. **Edite el archivo de definición** de la aplicación `events.yaml` y reemplace las columnas existentes.

```

eventos.yaml
